Thanks Pat

We would like to collect 10% splits for your event as well. I have a note out to Lisa to confirm she is willing and able to collect them when you all are there.

I will be in touch.

Dan,

Thanks for the heads up.

We are going to move forward on our original schedule and sample next week.

We will work out logistics for splits with you in advance of your sampling run.

Pat

Hi Again

We have decided to postpone next week's sampling for a variety of reasons including mostly flow this will allow us to clean up our SAP and finish requesting access. We are rescheduling the week of June 8 which "should" afford us access to upper stations when they are flowing and still be on the high side of the hydrograph at our lower stations.

If you are able and would still like to participate with us on June 8<sup>th</sup>, please let me know as soon as possible.

I sincerely apologize for the inconvenience.
